- 3Ds MAX
- Excel
- WordPress

EDUCATION:

IT STEP ACADEMY (GRADUATED)

2017-2024

VARIOUS ONLINE COURSES

UNIVERSITY ONLINE COURSES

HIGH SCHOOL

2015-current

LANGUAGE:

- Romanian (Native)
- English (C1 In progress)
- German (C1 Goethe)

PROFILE:

People often describe me as original, energetic, and slightly "wired differently" in the best way possible. I'm naturally curious and not afraid to step outside my comfort zone, challenges motivate me. Beyond technology, I'm passionate about learning foreign languages and reading. Speaking languages such as English and German allows me to communicate with people from different cultures, access international opportunities, and learn directly from global sources of knowledge.

At the same time, in an age shaped by AI, reading remains essential because it develops critical thinking, deep understanding, and the ability to question ideas rather than simply consume information. At my core, I'm a learner who values growth, creativity, and the courage to think differently.

STRENGTHS:

- Creative problem-solving*-> I notice important details that can influence project outcomes.
- Efficient learning*-> Accelerated learning pace, quickly integrating new concepts.
- Adaptability*-> Self-taught, finding opportunities others may overlook.
- Attention to detail*-> Efficient organization.
- Team player*-> Collaboration and empathy drive my best work.

EDUCATION / ACADEMIC COMPETITIONS

- Six-year comprehensive advanced study program in Information Technology, completed with rigorous evaluations and final examinations.
- 4 years of learning german at Goethe Zentrum Akzente
- English language courses at ILTC

University Technical Sessions

- Participation in online academic sessions with the Technical University of Munich, Berlin Technical University, and Darmstadt Technical University
- Participation in international and national competitions, including German language olympiads, achieving top positions.

ONLINE INTERNSHIPS & CERTIFICATES (2026)

Mastercard – Cybersecurity Virtual Experience (January 2026)

- Job simulation as an analyst on the Security Awareness Team
- Identifying and reporting security threats (phishing)

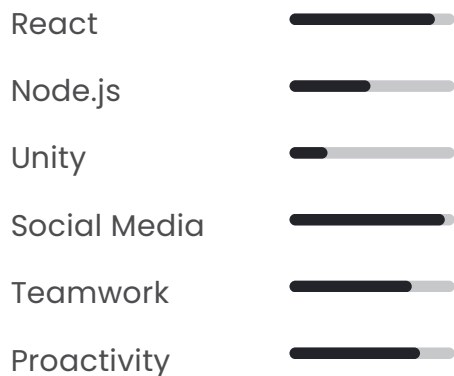

Boston Consulting Group (BCG) – Climate & Sustainability (January 2026)

- Applying sustainability concepts to real-world challenges
- Developing critical thinking and problem-solving skills

Certiport 3 certificates:

My professional Certiport certificates represent an internationally recognized validation of my digital and technical skills in databases, python, device and data configuration. They demonstrate my strong theoretical knowledge and my ability to apply these competencies in real-world contexts. These certifications strengthen my professional profile by highlighting my commitment and my adaptability to the evolving demands of the job market and not only.

STILL IMPROVING THIS SKILLS

FEATURED PROJECTS

=>CarteaMeaCarteaTa

Interactive digital platform connecting readers and booksellers.

- Technologies: WIX, Adobe, SQL
- Link: [Live Demo](#)

=>MedTrack

MedTrack is my most recent and ambitious project: a digital solution for replacing physical medical cards with secure, centralized medical records.

- Technologies: Figma, Prototyping
- Link: [View Technical video](#)

=>Telegram Bot

Automation and engagement solution built for messaging platforms.

- Technologies: Python, Telegram API
- Link: [GitHub Repository](#)

=>Game Project

Complex interactive game development showcasing programming and design skills.

- Technologies: Construct 3, UX Research
- Link: [View Presentation](#)

10+ PROJECTS

PROFESSIONAL TRAINING & WORKSHOPS (2020-PRESENT)

- Workshops in Figma, job simulator programs, finance courses, public speaking

CAMPS (2018-PRESENT)

- IT America House Camp** – intensive tech and innovation camp
- Reading & culture-based camps** – analytical thinking and communication
- "Energel"** (competitive selection) – development camp organized by UNDP and GUTA Club (leadership and civic engagement)
- Chess Camp** – strategic thinking and problem-solving
- Professional development camps** – career growth, linguistic skill application, oratory practice
- IT-focused camps on artificial intelligence principles

VOLUNTEERING (2025-PRESENT)

- Tech Events** (SumoBOT, Hour of Code, Demo FTC) – organizing and coordinating workshops for children and youth
- Futsal Championship** – logistics support and spectator coordination
- Volunteer at "Children of Science"** – I've been teaching African students english for 1 academic year
- Eurovision National Selection** – volunteer at Moldova's national selection event

ROBOTICS (2025-PRESENT)

I am a member of the ASA Robotics Team, where I collaborate with colleagues to design and build fully functional robots from scratch for prestigious competitions, including the First Tech Challenge (FTC) and other national and international robotics championships. My technical competencies include programming in C++, Java, and Python for control algorithms and sensor integration, hands-on experience with electronics such as sensors, actuators, and microcontrollers, as well as CAD mechanical design and system integration. This experience has sharpened my analytical thinking, strengthened my perseverance, and enhanced my ability to communicate effectively across disciplines while remaining focused under pressure.

SCIENCE EVENTS – PARTICIPATION (2016-PRESENT)

Since 2016, I have consistently participated in technology exhibitions, science fairs, and interactive workshops, where I explored emerging innovations and engaged with diverse technological perspectives. These experiences allowed me to strengthen my communication and interpersonal skills by interacting with professionals, exchanging ideas with peers, and presenting technical concepts to varied audiences.

I'm always open to discussing new projects, creative ideas, or opportunities.

I would appreciate it if you could also explore the digital version of my CV, which offers a significantly enhanced visual experience and interactive format, accessible at the following link: <https://otiliamuntean.github.io/CV/>
